IT SUPPORT | APPLICATION SUPPORT | JUNIOR SYSTEMS & NETWORK SUPPORT

PROFESSIONAL SUMMARY

Recent graduate of Douglas College's two-year Computer Studies & Information Systems diploma program with hands-on experience in Windows and Linux environments, networking and virtualization, cloud infrastructure, Python scripting, databases, and full-stack development. Brings three years of professional operations experience managing a small metal cutting and bending branch and supervising two employees. Strong troubleshooting, organization, and problem-solving skills, with a focus on entry-level IT support, application support, service desk, and junior systems/network roles.

TECHNICAL SKILLS

Systems & Support: Windows, Linux/Ubuntu, virtual machines, troubleshooting, TCP/IP, CIDR/subnetting, ping and network diagnostics

Cloud & Infrastructure: Google Cloud Platform (GCP), Terraform, Compute Engine, Apache, infrastructure as code

Programming & Data: C#, Python, Java, JavaScript, HTML, CSS, React, Node.js, Express.js, SQL, MongoDB, REST APIs, Git/GitHub, PowerShell

Tools & Security: Git/GitHub, Kali Linux, network scripting, hashing, RSA fundamentals, Firebase Authentication, Socket.IO

TECHNICAL PROJECTS & LABS

Silent Auction Full-Stack Web Application | *React* | *Express.js* | *MongoDB* | *Firebase Authentication* | *Socket.IO* | *Nodemailer*

- Developed a full-stack auction application with authenticated users, item listings, real-time bidding, auction closing, and winner notifications.
- Built REST API routes for item retrieval, bidding, and auction closure; used MongoDB for persistence and Socket.IO for live bid updates.

Cloud Infrastructure & Automation Lab | *Terraform* | *Google Cloud Platform* | *Ubuntu* | *Apache* | *Networking*

- Provisioned a GCP virtual machine and static IP with Terraform, deployed Apache on Ubuntu, and applied infrastructure-as-code practices.
- Performed load testing with 15,000 requests at 100 concurrent connections and worked with cloud, networking, redundancy, and security concepts.

PROFESSIONAL EXPERIENCE

Branch Manager / Operations Coordinator | Globalfer - Metal Cutting & Bending Branch | *Brazil* | *3 years*

- Managed day-to-day branch operations, organized production priorities, coordinated cutting and bending requirements, and resolved operational issues.
- Supervised two employees, assigned daily work, monitored workflow and materials, and helped keep production requests moving on schedule.
- Coordinated with the affiliated parent business, communicated production requirements clearly, and resolved workflow issues in a small-business environment.

EDUCATION

Two-Year Diploma - Computer Studies & Information Systems | Douglas College, New Westminster, BC | 2026

Relevant coursework: Operating Systems; Database I & II; Full-Stack Development with JavaScript; Virtualization & Computer Networks; Systems Analysis & Design; Cloud Infrastructure; Scripting for Cybersecurity; Mobile App Development; Advanced Integrated Software Development.
